

## Design a Viking Shield 1

A Viking soldier used his shield to protect himself. It was made of wood, iron and leather. In the centre was an iron boss that protected the soldier's hand. They also decorated their shields. Look at the examples below.

Choose four appropriate colours to decorate your shield, Remember to choose at least one colour for the metal parts of the shield.

## Design a Viking Shield 2

Design two different Viking shields. Look at the examples to make sure you use the right kind of patterns and colours.
