

## Year 1 Home Learning – 2<sup>nd</sup> half of Spring Term

Below, you will see 6 home learning tasks. You may choose the tasks that you wish to complete and do them in any order.

Please do not hesitate to contact us if you have any queries.

### Information texts

Create your own booklet with facts, pictures and labels about your favourite animal.

### Computing – Instructions

You have been learning about algorithms. They are a set of instructions used to tell a computer program what to do. Can you order the instructions for building this tower to show which order they should go in? If you have bricks at home, you could try it.

Stick a yellow brick on top of the red brick.

Stick a toy man on top.

Start with a red brick.

Repeat the pattern again and stick it on top.

Stick a blue brick on top

Stick on another brick of the same colour.

### Geography

Go on a local area walk and identify as many different types of building as you can.

Can you draw a map with the different buildings on it?

### In the past

Find out about a famous person from the past.

Choose from – Guy Fawkes, Neil Armstrong or Mary Anning.

Can you make a booklet with some pictures and facts in.

### Potato Printing

Can you ask an adult to help you cut a shape out of a potato. Dip it into paint and see if you can make a repeating pattern or a picture of a person or house.

### Super Science

See how many different materials you can find around your house – plastic spoon, metal spoon, cork, pebble, paper, sponge, flannel and investigate to see if they sink or float. You will need a bowl of water – ask an adult to help.

Can you make a list of materials that float or sink?
